*Cases reported and confirmed through December 2007

**Persons diagnosed with HIV may also be diagnosed with AIDS in the same year or a later year and their AIDS diagnosis will be counted in the AIDS diagnosis tables. HIV and AIDS diagnoses cannot be added together in a meaningful way.

***per 100,000 population. Rates for Total, Gender and Race/Ethnicity are age-adjusted to the 2000 US Standard Million Population.

****The completeness and uniformity of reporting of the "multi race" category is uncertain and, therefore, rates are not shown.
